

## DSKUBUNTU Talent Fund

As parents, we want to give our children the best possible start in life so that they may pursue their dreams and become balanced, confident and successful young adults.

Sadly, only a minority of families in South Africa can afford to pay towards a quality holistic education, let alone extra tuition to nurture a child's talent.

The Ubuntu Fund was established by the German International School Cape Town to help benefit learners from low income backgrounds.

**Help us to support more children in their pursuit of interests and passions they otherwise couldn't afford by donating to one of the following development programmes:**

 **Academic and leadership development**  
Financial support for books, extra tuition, leadership training and other chargeable subject choices.

 **Talent development**  
Financial support for musical instruments or sports equipment, musical tuition, extramurals offered that have an extra fee or financial contributions towards attending competitions.

 **Study trip and exchange programmes**  
Financial support towards exchange programmes to Germany or a donation in support of a child's study trip to Germany.
